DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas M. Fisher on 11/24/04.

The application has been amended as follows: In claim 1 lines 3; delete "comprising" and insert----including----thereof.

In claim 12 lines 2; delete "comprising" and insert---including----. In lines 4; delete "comprising" and insert----having-----.

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior of record singly or in combination fails, to anticipate or render obvious the limitations of the independent claims 1, 6 and 12 as follow: a mullion assembly comprising a base, a first light source coupled to the base for producing light above the base and a second light source coupled to the base for producing light below the base.

Further, independent claims 19,21-22 cite a light coupled to the base for illuminating the pan, a control panel coupled to the base for user selection of a pan condition, and a control board coupled to the base and operatively coupled to the

control panel. An insulated mullion assembly is overlying the pan and thermally isolating the pan from the fresh food compartment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
